

# Now you can bring her on board quickly and easily.

Imagine streamlining your organization with a web-based credentialing and screening solution that puts allied health care providers – from physician extenders and nurses, to therapists and technicians – in charge of their data. Enhances recruitment and onboarding. Includes screening services. Provides primary source verifications of licenses, certifications, other credentials and more.

That's what you get with CheckMedic™, the game-changing solution to today's complex health care environment. Accurate and comprehensive, it ensures that the credentials of every allied health care provider have been checked and verified, saving you time, money and effort. CheckMedic continually monitors and verifies credentialing and sanctions data that can change over time, alerts you of any status changes, and more.

Set-up is easy. After you register for an account, invite your providers to create a customized MedPass™ profile containing their credentials, verified background data and self-reported information.

CheckMedic provides you with powerful benefits, including:

- ✓ One-time setup
